

Water Balloon Volleyball

Supplies:

1. water balloons – supplied by the library
2. 2 towels
3. Tape or rope

HINT: If you have a clothesline that will work!

4. A pail or bucket – a cooler will work too!

Steps:

1. fill up a pail or bucket with a few inches of water. With a garden hose, fill up your water balloon over the pail so they fall into it when they are full.
2. Split up into teams of two. Each team needs a towel. Make sure you have the water balloons ready. If you have a volleyball or badminton net, set it up. If you don't, lay out some tape or a rope on the ground.
3. Place a balloon on the towel that a pair of players are holding...and launch!
4. The team on the other side try to catch the balloon in their towel and send it back.

TIP: Each team should have a runner getting balloons for them and placing them on the towels.
